Presentation

This book marks the 15th anniversary of the work of Global Education Network Europe (GENE), networking policy makers for increased and improved Global Education in Europe. It explores key issues in contemporary Global Education in Europe: issues of national strategy, of structure development, of policy learning and engagement within education systems. It outlines challenges in research, practice, policy and conceptual development, through detailed analysis of national and international case studies. The book will be of use to policy makers, educationalists, researchers and practitioners in the fields of education, international development, human rights and sustainability.

Contents
